ATTENTION: With the key out of the ignition, disconnect the negative battery terminal before installing this product. Ensure that all installation connections, especially the air bag indicator lights, are plugged in before reconnecting the battery or cycling the ignition to test this product.

NOTE: Refer also to the instructions included with the aftermarket accessory before installing this device.

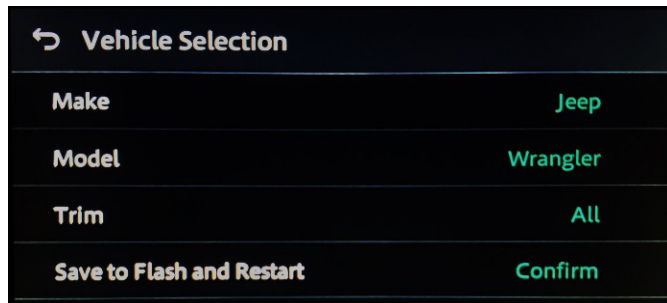

INTERFACE INSTALLATION

RADIO OPERATION

Vehicle Selection – Allows you to select the vehicle the radio is being installed in.

- Vehicle type must be selected to activate menu & HVAC functions, as well as steering wheel controls. Press Make to change the vehicle type. Then press Confirm. The radio will then reset and lock in the selected vehicle.

Car Features – The source for accessing all vehicle information and options.

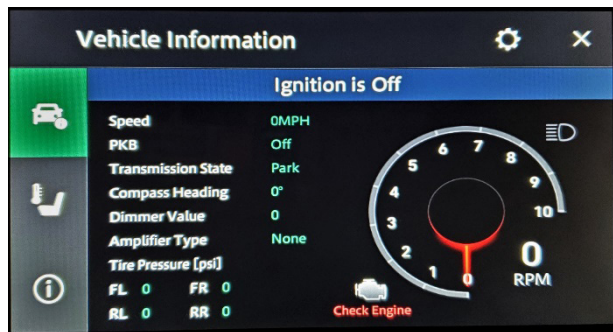

RADIO OPERATION (CONT)

HVAC Operation – HVAC Status and Control Screen.

Vehicle Info Screen – Displays various information of the vehicle (TPMS, Park Position, Lights).

Customizations Menu – Allows full control of vehicle personalization options.

- Access this menu by selecting the gear icon on the previous screenshot.

About Screen – Feedback screen for interface software information.
